Overview:

Category: T5

Type of query: Selection of a hit from the hit list, detail display without hit list or user-specific detail display (1 AG) for the products

- DEV (derivatives)

Quality: Detail display

Type of query: Selection of a hit from the hit list, detail display without hit list

What is a selection of a hit from the hit list?

Your search criteria were not clear enough to find only one result, thus a hit list is displayed. To select a hit from the hit list and display the relevant details, double-click on the desired hit.

What is a detail display without hit list?

Your search criteria have led to exactly one result and thus no hit list is displayed, but the detail display of the desired query profile.

Quality: Detail display

What is a detail display?

WMACCESS shows the detail display, if your search criteria have led to exactly one hit or if you double-click on one hit of the hit list to view the details.
