WMACCESS

Query Category

T7

Explanations

FAQ

Examples

Overview:

Category: T7
Type of query: Selection of an item from the search results list or a direct detailed content view for query profiles
- (G) Securities Static Data
- all user-specific query profiles
Quality: Detail display

Type of query: Selection of an item from the search results list or a direct detailed content view

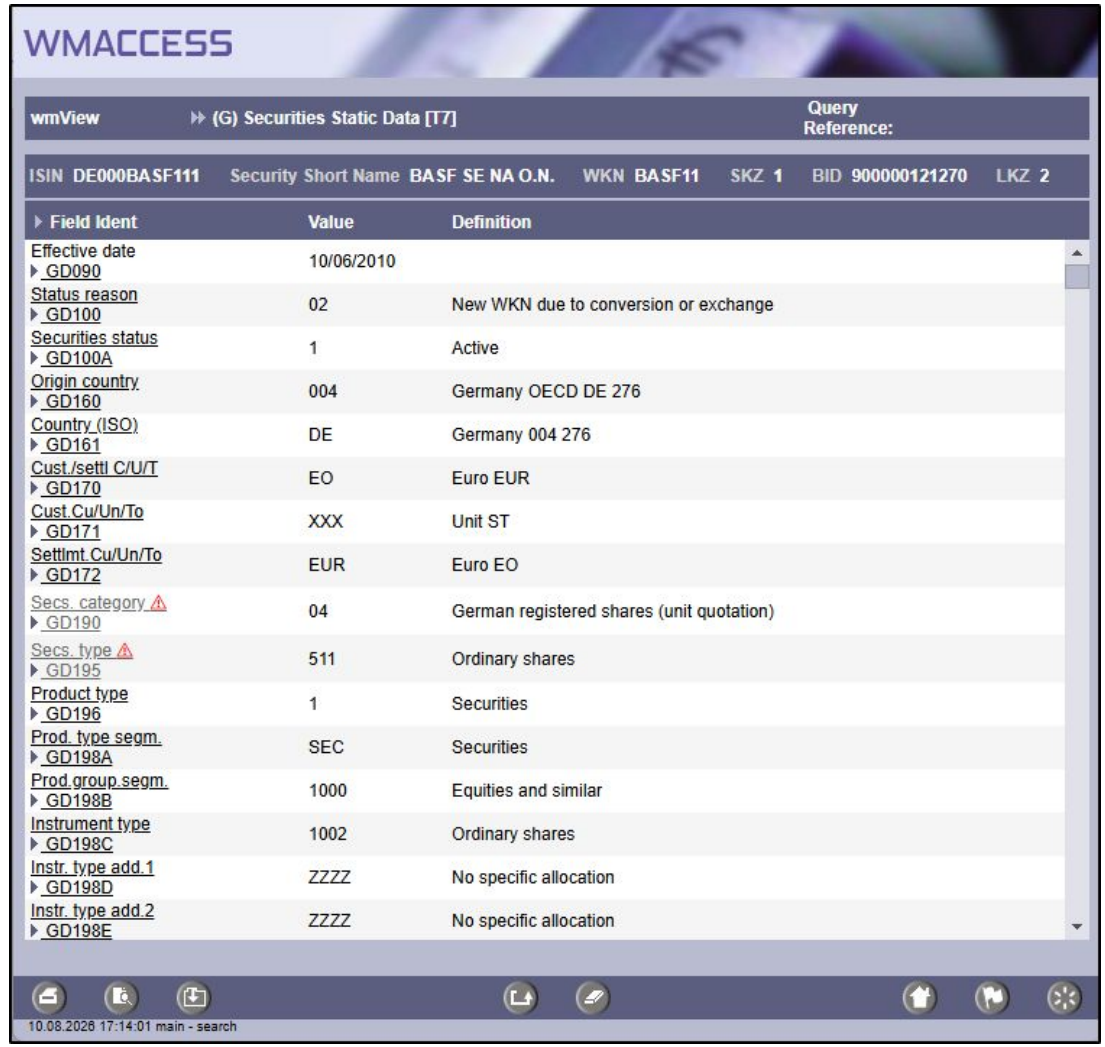
What is a selection of an item from the search results list?
Your search criteria were not clear enough to find only one result, thus a hit list is displayed. To select a hit from the hit list and display the relevant details, double-click on the desired hit.

What is a direct detailed content view without hit list?
Your search criteria have led to exactly one result and thus no hit list is displayed, but the detail display of the desired query profile.

Quality: Detail display

What is a detail display?

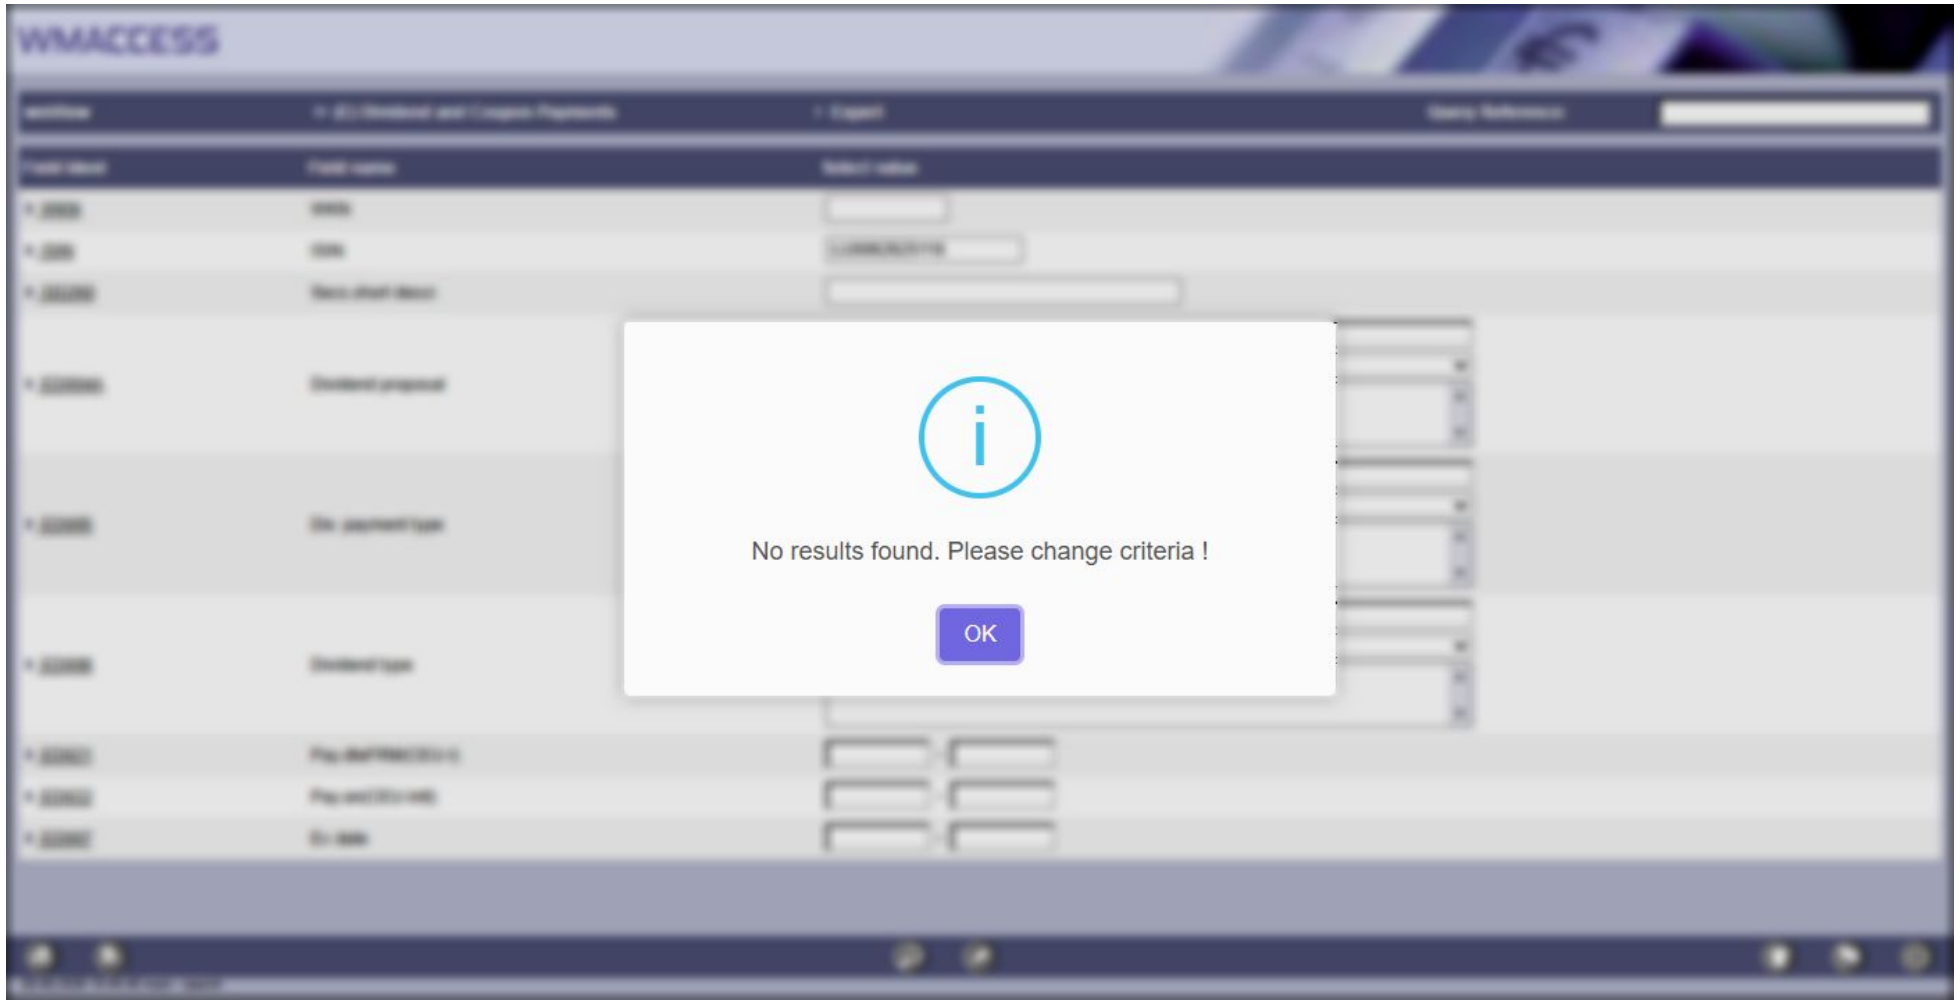
WMACCESS shows the detail display, if your search criteria have led to exactly one hit or if you double-click on one hit of the hit list to view the details.



FAQ:

What happens, if by means of the search criteria no data (no hits) are found?

You will receive a notification – free of charge.



FAQ:

How can I tell which query category is being applied to my query?
Starting November 1st, 2026, the query category used for detailed views will be indicated in the profile name.

Show Sections | wmView	Show Sections | wmProfile
(B) Coupon Renewals (Frozen)	Alternative Identification [T3]
(D) Options & Futures (O&F) [T5]	Collateralisation & Funding [T3]
(E) Dividend and Coupon Payments [T3]	Corporate Actions [T3]
(G) Securities Static Data [T7]	Direct query field ident [T4]
(H) Shareholders' Meetings [T3]	EU Savings Directive [T3]
(I) Fund Prices, Interim Earnings [T3]	Extended Issuer data [T3]
(J) Ongoing indicators [T3]	Fund Classifications / AIF [T3]
(K) Capital Adjustments [T3]	IPO (Initial Public Offering) [T3]
(M) Issuer Static Data [T3]	Interest information [T3]

Will T7 be charged again, if I call a detail display for a second time or click on a hit from the hit list for a second time?
Yes, each display of a detail display will be charged, independent of whether it was displayed before.

Example:

Search Securities Static Data for ISIN DE000ETF7011

Tips:

- Print a detail display to save costs if you want to analyze the information of this detail display again later.

- A print out, no matter whether hit list or detail display, will not lead to a separate charge of a query category.
